

# The Epigenetics Consortium of South Australia Incorporated (EpiCSA) invites you to attend its second bi-annual seminar series for 2021 on “Ground breaking research in Epigenetics and Chromatin Biology”

Twice a year EpiCSA will showcase a researcher from around the globe who is conducting paradigm shifting research, changing the field of chromatin biology and epigenetics.

**Speaker:** *Prof David Gokhman (Weizmann Institute of Science, Israel)*

## Title

**“Human evolution through the lens of gene regulation”**

### ➤ When

Wednesday 15<sup>th</sup> December 5:00pm (Adelaide time)

### ➤ LOCATION
